have not been shot and the effect of nitro-glycerine is unknown in the field. Many old time drillers say they have seen as many wells ruined by explosives as have been benefited by a shot and those who feel that way are of the opinion that shooting is not worth the trouble.

Kenthoma Oil Company.

Kenthoma Oil company in section 27-3-2 reached the top of the sand at 1020 feet, the total depth is 1050 feet, there were 38 feet of pay sand, the production is 250 barrels. The scout reports give the well credit for being less than this amount but Dr. F. W. Skillern who has charge of the Kenthoma company says he will put the well on the pump and if it does not make 250 barrels he will give it to the Benevolent Association. He has the well producing through a ten inch casing and the manner in which the well was finished adds to its production.

DUNDEE PETROLEUM COMPANY

Buys Large Acreage in Marshall County.

The 1916 Oil company, which is drilling a well in section 9-5-6, with a standard rig, has sold a part of its holdings to the Dundee company, and this well will be completed by this company. The Dundee is one of the largest companies operating in the state and this deal guarantees a thorough test being made on their holdings in Marshall county, which comprise several thousand acres in and around Cliff, about 4-1-2 miles southeast of Madill. Mr. Stettin who has had charge of this well, will continue to manage the drilling of the well.—Madill News-Democrat.

AN IMMENSE GAS WELL.

Local Men Have Well Making Sixty Million Feet of Gas.

Apple, Franklin, Johnson & Galt in the southwest corner of the northwest quarter of 15-4-3 are deepening their gas well on the Ruby Ingram ten acres that was drilled to the first big gas sand several months ago. At 1168 feet the drill entered a heavy gas sand and at noon Saturday the well was at a total depth of 1230 feet and was making gas estimated at from sixty to seventy million feet. No oil has been found. Claud Bell who has charge of the drilling has kept the gas under good control so far and has conserved it well. The gas production will be braden headed in and the drill will be sent deeper to the oil sand. A market can be had in the field for the gas production. This report shows the second gas sand to have a thickness of 62 feet.

Wanted—Settled production from 100 barrels and up. Also would like to hear from producers who would be interested in combining their production with building of refinery and pipe line. We have Chicago capital interested. Terry & Brinkley, Guthrie, Okla. 9-17

Broadway Methodist Church.

Rev. Hiram Abiff Boaz, D. D., of Fort Worth will preach for us this morning. We are very fortunate in having him. He is one of the south's great preachers and lecturers and educators. Dr. Boaz is not a stranger to Ardmore as he preached the dedicatory sermon for Broadway three years ago and also lectured on the same visit. We hope for an audience that will tax the capacity of the large auditorium.

At the evening hour the pastor will preach, or else one more capable whose name we are not at liberty to announce on account of arrangements not perfected.

Special music at all services. Mixed quartet at morning service. Membership will please not forget to attend to the special matter of letter received during the week. E. R. WELCH, Pastor.

The Worst.

"Talk about torture."

"Yes."

"Nothing is worse than sitting in a barber's chair with your mouth full of lather watching the boy trying to give another customer your Panama hat."—Life.

It Was So Sudden.

The Sutor (in a rhapsody).—"I adore everything that is beautiful, exquisite. I love the serene, the perfect!"

The Maid (cooly).—"Oh, Harry, how can I refuse you when you put it so beautifully?"—Pack.

Honor Among Thieves.

Freak Lightning Strikes.

There is an instance on record of a couple of men who were traveling in the Vosges mountains. They rushed for trees to escape the pelting, driving rain. A stroke of lightning knocked them senseless, and it was thought on first examination that they were dead. The best attention and care were given them, and they survived, but on the back of each, extending to the thighs, was the imprint of leaves of a lime tree.

Exclusive.

Young Heffron was overjoyed when Baby Jackson promised to be his wife and presented himself before the rich old father to obtain his consent. "What do you want a wife for when you can scarcely support yourself?" queried the old gentleman crustily. "Why, sir, my daughter would starve!" "Well, sir," replied Heffron, with great dignity, "if you are the kind of man to let your daughter and her husband starve, I don't wish to enter the family."

Expert Testimony.

Young Mrs. Cornell was a bride of but a short time. One afternoon she confided to her friends at a pink tea that she was sure her husband never played poker at his club. "How," queried one of the women, "did you find out?" "Oh," explained the young bride, "I met a couple of the members of his club the other day and I asked them: 'Can Perry play poker?' They looked thoughtful for a moment and then answered very sincerely: 'No!'"

Well-Bred Girl.

The other day we saw a young girl, seventeen or eighteen perhaps, listening quietly and attentively while her father told a story she had heard often. One sees so much inattention and quivering deprecation of father's or mother's hobbies that it was a pleasant thing. We credit that little lady with far more than mere good training—with the right kind of heart. For truly good manners mean more than technique; they bespeak the true man and the true woman, too.—Exchange.

Next Day, All Right.

She (during the spat).—"It's a story for you to say I grabbed you up quick. You know very well that when you proposed I didn't say yes till the next day." He—"That's right! I proposed at 11:30 p. m. and you accepted me at 12:01 the next morning."—Boston Evening Transcript.

Good Example.

Once a very youthful chicken fancier had in his possession a couple of bantam hens that laid very small eggs. He finally hit upon a plan to remedy this.

When the lad's father went the next morning to the chicken house he was surprised to find an ostrich egg tied to one of the beams, and above it a card with this notice: "Keep your eye on this, and do your best."

Smelling Printers Ink.

Jerry Bolsley of Clarence, Mo., editor and owner of the Clarence Sentinel, is making a brief visit with his brother-in-law, Prof. Noah Crisco, principal of the First Ward school in this city. Mr. Bolsley was hungry for the smell of printers' ink and made a trip through the Ardmoreite office. He is on his way to De Quincey, La., on a business trip.

He Knew.

They were homeward bound from church.

"According to the minister's sermon this morning," said Mrs. Enpeck, "there is to be no marrying or giving in marriage in heaven. Do you believe that?"

"Well, I have no reason to doubt it," answered Enpeck. "There must be some way to distinguish it from the other place."—Indianapolis Star.
